Sir,

With reference to the subject cited above, it is to remind you that the Plumbing Engineer is not yet deployed at site although more than three and half months have already been elapsed from the date as notified vide ref (3).

As CNBT is a prestigious, state of the art and time bound project, if any discrepancies noticed due to inefficient technical guidance in the execution of internal, external MEP & development works of the project, then necessary rectifications shall be carried out at the risk of M/s URC Construction Pvt. Ltd. as a result of which the project may get delayed. Now the Blockwork activity in Terminal Building area has commenced for which competent Finishing Engineer shall be mobilised at the earliest for smooth & early progress of the work

This is for your information & necessary action.

Yours faithfully,
